Holland Woman Killed In Truck-Car Collision

Henrietta Breuker, 52, of route 2, was dead on arrival at Holland Hospital Tuesday following a car-truck accident at US-31 and Ransom St., at 3:30 p.m. The truck driver, Richard Bolthouse, 41, of Fruitport, escaped injury.

The accident occurred when Mrs. Breuker pulled out into the path of the southbound truck, Ottawa County sheriff deputies said. The impact forced both vehicles about 100 feet south of the intersection.

Mrs. Breuker's body was thrown from the crushed car about 65 feet after impact. The truck continued south about 72 feet where it turned over on its side and skidded another 60 feet where it caught on fire.

The truck driver, Bolthouse, escaped through the front of the truck after it had caught on fire and the windshield had popped out,

deputies said. Two gas tanks on the truck soon after exploded. The 1963 model truck, carrying two dies weighing a ton each, burned completely. Holland Township firemen were called to put the fire out.

The car driven by Mrs. Breuker was also completely demolished from the collision. The body of the car was crushed to the left side of the car, and the path from the intersection to the car was strewn with hubcaps, a tire, a floor mat, chrome and glass. The front seat sat a few feet from the intersection.

Bolthouse told deputies he slowed down when he saw the car approaching in the center median. When she pulled out into the southbound lane, he swerved but was unable to avoid hitting the car, deputies said.

Mrs. Breuker lived on Ransom

St., a short distance from the accident site.

This makes the 17th fatality in Ottawa County this year. Deputies recorded 12 by this time in 1962.

Mrs. Breuker was active in church organizations, a vice president of the Ruth Circle and a church organist.

Surviving are her husband, Henry; three daughters, Mrs. Laverne (Joyce) Overbeek, of 4970 128th Ave., Mrs. Sidney (Doris) Lankheet, of 884 144th Ave., and Mrs. Henry (Beverly) Tubergan Jr., of Zeeland; two sons, Jay and Wayne, both of route 2.

Windmill Can't Qualify For FHA Loan

Project Windmill, the plan to develop a tourist recreation area around an authentic windmill to be imported from The Netherlands will be financed without the aid of a Federal loan, City Council decided Wednesday night.

City Manager Herb Holt told the Council that a loan from the Federal Housing and Home Finance Agency in the amount of \$442,000 would not be forthcoming, because the purchase and shipment of the windmill, amounting to \$30,000, cannot be conducted on the basis of competitive bids.

Holt said the \$30,000 deletion makes it impossible to proceed with securing the rest of the money sought in the federal government's purchase of the revenue bonds since the windmill is the principal attraction in the development, and the money to purchase and ship the windmill must first be on hand before the government would purchase the remaining \$412,000 in bonds.

The alternative, Holt said, is to market all of the revenue bonds on the open market, selling to private investors. An ordinance authorizing the city to do this is now in the works, Holt said, following Council's approval of this procedure Wednesday night.

He noted that the sale of the bonds on the open market may speed up, rather than impede the progress on the new development on an island just east of the River Ave. bridge in Black River, since dealing with the Federal government is frequently a much slower transaction than open market bond sales.

Under the new plan, the project would still be entirely self-supporting, and no public funds would be needed to finance it. The bonds would be paid off by revenues received in admission charges when the windmill and surrounding development are in operation.

Planners still hope to have the project in operation for the 1964 Tulip Time Festival in mid-May.

2 Members Vote 'No' On Budget

Seddon, Lamb Oppose Approval; Plan Gets Needed Two-Thirds

The Holland Board of Education Monday night approved a proposed \$1,754,097.98 budget for the 1963-64 school year, and announced austerity measures and economies during the past year have eliminated entirely the deficit of \$107,000 from the beginning of the 1962-63 year.

The proposed new budget passed 4-2, and thus gained approval by exactly the two-thirds vote required for passage.

New members Arthur Seddon and James O. Lamb, attending their first regular board meeting as members, cast "no" votes. Votes in favor were cast by President Harvey Buter, William Gargano, Bernard Arendshorst and Albert Schaafsma. Harry Frissel, attending school in Washington, was not present at the meeting.

The new budget as presented by Schaafsma, board treasurer and chairman of the finance committee, shows an anticipated deficit of \$22,122.40, due to a carry-over deficit from the 1962-63 year.

But an account receivable from the Maplewood district for tuition, in the amount of \$39,560.53 will eliminate the deficit entirely, even after the Holland district has paid to the Hamilton district \$6,748.74, to complete the settling-up process in connection with the annexation of Maplewood to the Holland district.

After the Maplewood payment is received, and the Hamilton settlement made, the Holland district will have an estimated anticipated balance of \$10,689.39.

The new budget for the coming year is a balanced one, listing total estimated budget expenditures at \$1,754,097.98 and total anticipated income before the Maplewood payment and the Hamilton settlement at \$1,757,256.68. A recent six-mill special operating levy in Maplewood will cover the tuition payment. Commenting on the budget, Schaafsma said there is the possibility that expenditures might be reduced in some places "through some saving," but it was clear that the board views the estimated expenditures total as a rock-bottom figure for the successful operation of the district. Schaafsma said expenditures were more likely to be higher than anticipated.

One additional expense not anticipated in the budget was discussed Monday night. Schaafsma reported that an amount estimated at \$6,000 in library penal fees from the State of Michigan would not be forthcoming this year.

The State Supreme Court, in the so-called "Belding case" has ruled that the penal fees monies are not payable to libraries operated by and for school districts, but must be limited to public libraries. Money which would have gone to the school system will go to the Herrick Public Library; previously the school and the public library split the penal fee payments.

Seddon discussed his objections to the proposed budget at some length. He said he was chiefly concerned about what he felt is an imbalance in the budget in favor of high school instruction, at the expense of elementary education.

Seddon said he "sensed" in the budget that the distribution of funds was, in effect a substantial change from previous budgets, in favor of the high school program; he said he felt the reductions necessitated by the defeat of two operating millage issues this past year amounted to "slight" reductions in the high school program, and "drastic" ones in the elementary program.

Schaafsma, Supt. Scott and Arendshorst, last year's president, responded that the inequities Seddon pointed out were recognized by the board, and that the elementary program was first on the list of improvements to be made when funds were available. However, the necessity for maintaining a standing among accrediting organizations such as the University of Michigan and the North Central Association necessitated the "weighting" of the budget in favor of the high school.

Schaafsma pointed out that the improvements sought in the two defeated bond issues were in the elementary and junior high areas.

Annexation Vote Decision Is Due Soon

James Chapman from the office of the State Elections Director Robert Montgomery, was in Holland Wednesday investigating petitions in connection with the election sought on the annexation of the Federal district to Holland.

Chapman was checking election petitions with records on file with the City Clerk and the Holland Township Clerk.

He said a decision on whether the election will be held should be forthcoming from the Elections Director by the end of the week.

If a vote on the proposed annexation is approved, the State officials will also set a date for the election.

Chapman said state officials still must study the appeal filed with the State Supreme Court by the Ottawa County Board of Supervisors on a recent decision by Circuit Judge Raymond L. Smith.

Smith issued a summary judgment declaring that petitions seeking an election on the proposed incorporation of the home-rule city of Van Meer north of Holland were defective.

The Van Meer proposal included the Federal district in the proposed area of incorporation.

After a short recess Russ Sakkers showed two gospel films "Lord of All" and "The Way Out." The evening program then closed with a gathering in the auditorium for after program snacks.

The evening program began with a welcome by Stanley Lampen and prayer by Richard Wolters. This was followed by community singing lead by Dennis Jonker. A quintet "The Jubilaires" of Mrs. and Mrs. Clyde Neiboer, Mr. and Mrs. Dennis Jonker and Morris James then rendered several numbers. City Council Okays Five Sewer Projects

After a series of public hearings on sanitary sewer projects Wednesday night, city council unanimously adopted four of five resolutions authorizing their construction.

Defeated in a tie vote was a resolution to construct a sanitary sewer on 40th St. from Central Ave. east 300 feet. A letter from Ernest Kleis, 91 West 40th St., was presented objecting to the proposed sewer on the basis that it was not a public necessity. Kleis owns half of the property to be assessed.

Resolutions adopted authorize the construction of sanitary sewers; in 33rd St. to Pine Ave.; in Pine Ave. from 33rd to 37th; and 37th St. from Pine Ave. westerly 325 feet; in South Shore Drive from Plasman to 16th St.; on College Ave. from 35th St. to 40th St.; on 33th St. from Columbia to Lincoln Ave.

Following a public hearing a resolution to pave 33rd St. from Pine Ave. to a point 565 feet east was also passed unanimously.

Council referred to the Board of Public Works the request of the Board of Education to extend waterlines to Maplewood School as soon as possible.

Council granted requests for curb cuts to Dr. M. H. Hamelink, for 55 feet curb cut in front of his business at 196 West 32nd St., and to Earl Vander Kolk, for a smooth curb cut at his place of business at 32nd and Columbia Ave.

Council denied the request of the Holland Hotel Company for a new dance permit for the Oak Harbor Room in the Hotel Warm Friend.

The Library Board report recommending a transfer of funds in the library budget for the fiscal year 1962-63 was approved unanimously.

Council denied a recommendation of the Traffic and Safety Commission to replace angle parking with parallel parking on the west side of Pine Ave. and the north side of 13th St. near the Third Reformed Church. The recommendation would have also eliminated parking on the north side of 13th St. from the west end of the curb cut to a point 25 feet west of the driveway to the church parking lot and on the south side of 13th St. in front of the home of 120 West 13th St.

Council adopted a recommendation by the City Clerk to refer a liability claim submitted against the city by Mrs. Grace Rand, 29 1/2 West 16th St., to the insurance carrier and the city attorney for consideration and action.

Council approved unanimously

the City Clerk's recommendation that the bid of the East Jordan Iron Works for 60 manhole rings and covers for the street department at \$1,890 be accepted. The bid was six dollars higher than one of the three other bids offered, but City Engineer Laverne Serne told council that the street department's experience with the lowest-bidding company on delivery of similar items in the past indicated that the six dollars difference would be made up in better service.

Also approved unanimously was the City Clerk's recommendation to accept the bid of Keppell's Masonry Supply Co. for clay sewer pipe and stoppers. The winning company submitted a low bid of \$14,860.05.

Council approved the city manager's proposed street improvement program for 1963 and authorized the taking of bids on the jobs. The program involves resurfacing 2 1/2 miles of local streets with a total estimated cost of \$32,230 to be paid from motor vehicle highway funds.

Mayor pro-tem Henry Steffens presided as council moved into a committee of the whole for consideration of two amendments to the electrical ordinances. Electrical Inspector Fred Kobes and local electrical contractor Harold J. De Fouw appeared to speak on behalf of the amendments, both of which were adopted unanimously.

The first amends the section of the city ordinance code dealing with electrical installations and adopts the National Electrical Code of 1962 of the National Board of Fire Underwriters to be the electrical code of the city of Holland.

The second amended the city ordinance on electrical installations to require all electrical contractors doing the work in the city to secure an electrical contractor's license from the city on payment of a \$25 registration fee. Holland contractors already pay the fee each year. Previously electrical contractors for other cities had been permitted to do work in Holland to require all electrical contracting fees.

Council tabled a motion to notify the Crampton Mfg. Co. that certain property between 12th and 11th streets is now required for the perimeter truck route.

On Sept. 3, 1958, the City of Holland and Crampton's entered into an agreement by which Crampton's acquired Harrison Ave. between 12th and 13th streets. In return for giving the city the right of way to property between 12th

and 11th streets. The agreement provided that Crampton's would receive a one year's notification in writing from the city of Holland if the property was needed for the truck route.

The meeting lasted one hour and 15 minutes. Councilman John Van Eerden gave the invocation. Councilman Richard Smith was absent on vacation.

HUMAN SCIENCE?

Legislation is pending in Wash-
ington which may do something to
improve the conditions and treat-
ment of laboratory animals used in
scientific research. Here is a sam-
ple of recent testimony on the sub-
ject before a congressional sub-
committee:

"Animals are being subjected to pain, fear, and every possible
form of suffering. They are being
beaten, starved, burned, frozen,
blinded, drowned, forced to swim
and run until they die, accelerated,
deprived of sleep, irradiated, skinned,
and subjected to other meth-
ods of inducing pain and fear in
infinite variety. Nor is this suf-
fering limited to that inflicted dur-
ing the experiment. Often after un-
dergoing excruciating, painful pro-
cedures, they are given little or
no post-experimental care to re-
lieve their pain and terror.

"It is not unusual to find animals
housed in cramped wire cages,
without even a solid place on which
to sit or lie, for as long as five
or even ten, years."

Those who protest the inhumane
treatment of laboratory animals
have three main objections. First,
that many of the experiments are
pointless, and therefore the pain
inflicted on the animals is unjusti-
fiable. Second, that there is so lit-
tle communication between experi-
menters that similar, sometimes
identical, experiments are carried
out by different groups. Such dupli-
cation means gratuitous pain for
the animals used. Third, the lab-
oratory animals are given no pain-
relieving care after being subject-
ed to experiments.

Science certainly must be objec-
tive, but surely it need not be
cruel.

New Soil Scientist
In County Named

Warren Studley is the new soil
scientist of the Soil Conservation
Service at Grand Haven assisting
the West Ottawa Soil Conservation
district.

He will be conducting the soil
survey in Ottawa County. The sur-
vey when completed will cover the
entire county.

Studley has been in the Soil
Conservation Service since 1956.
He has worked in the Jackson and
Pontiac areas. More recently he
helped complete the Lapeer County
soils survey. He is married and
has one son Kevin who is two years
old. A native of Michigan, he re-
ceived his Bachelor's Degree in
1954 and his Masters Degree in
1959. Both degrees were from
Michigan State University in Soils
Science.

A soil survey is an inventory of
the soil. This is used mainly for
working with farmers on a con-
servation plan for their farm. The
survey is used to determine the
capability of the soil and define
the problems. This survey aids
work unit personnel help the farm-
ers work out an adequate soil and
water conservation program.

This type of information can be
used in drainage problems with
basements, septic tanks and foun-
dations for buildings.

Sunday School
Lesson

In the Image of God
Genesis 1:26-2:1
By C.P. Dame
Ideas are very important. Some
one has said that there are "two
focal points for life—a right view
of God and a right view of man."
The lesson of last week taught us
that God is the Creator of this
universe. In this lesson we are
told that God created man in his
own image—man is a creature
dependent upon God.
1. Man is the image-bearer of
God.

Note the words of Scripture,
"Let us make man in our image";
"and God created him in his
image" and "In the image of God
created he him."

These three statements teach a
great fact about man. Some be-
lieve these words of the Bible and
million do not. The Biblical view
of man is important and deserves
to be universally accepted.

If some one says of a boy, "He
is the very image of his father,"
the meaning is that he looks and
acts like his father.

In what respect is a man like
God? Man bears a rational image
of God. Man can think the thoughts
of God after him. Man can study
this universe for the reason be-
hind it is the same as his.

In addition man bears the moral
image of God. Man can discern
between right and wrong, he has
a sense of oughtness, but as keen
as before the fall but he still has
it. Man knows what he ought to
do, but alas he fails to do it.

The third mark of God's image
in man is his sovereignty and do-
minion over nature and over all
other creatures. Man is God's
viceregent on earth.

Man is a creature but he differs
from all other creatures for God
"breathed into his nostrils the
breath of life; and man became a
living soul."

Man is both material and spirit-
ual which differentiates him from
the other creatures. Man's body
unites him to the material world
while his spirit links him to the
realm of the spiritual. The soul
distinguishes man from animals.
When man is looked upon as soul-
less his worth departs.

II. God created man a sexual
being—"male and female created
he them." The Bible teaches that
woman is a gift of God to man
and that man is a corresponding
help or gift of God to woman. Men
and women are meant to supple-
ment each other. They differ physi-
cally and psychologically. It is
God's purpose that they should
bless each other, learn from each
other and grow up together.

God planned marriage and the
home in which children were to
be born and reared. One of the main
reasons why God established the
family is for the sake of the
children. Marriage partners should
not put their own happiness first
but seek the welfare of their
children always first.

Husbands and wives should re-
gard themselves as a single or-
ganism. Recall the words of Jesus,
"Therefore shall a man leave his
father and his mother and shall
cleave to his wife; and they shall
be one flesh." Parents belong in
second place.

Today's couples are favored in
many respects. They have more
than the couples of a past day.
In spite of the material advan-
tages the number of divorces is
increasing. What is the trouble?
There is a great need for godly
manhood and womanhood. It takes
three to establish a sound home—
a man, a woman and God. Too
often God is left out.

Swimming Pool Vote Scheduled

The Holland City Council voted Wednesday night to schedule a vote on the proposal to build an outdoor swimming pool for the city on the next city-wide special election.

The issue thus will appear on the same ballot with the proposal to politically annex the Federal School district to the city of Holland. The Secretary of State's office and the State Election Director in Lansing have not yet set the date of the annexation election. This is expected to be done within the next three weeks.

The swimming pool, as it appeared in plans drawn up by architects Kammeraad and Strop, has an estimated cost of \$125,000. Location recommended for the new facility is Prospect Park at 22nd St. and Columbia Ave.

The plans for the swimming pool

were the result of a study by a citizens committee which recommended the new facility after months of study last year. The firm of architects was retained following the committee's report, to conduct further study and draw up plans.

The \$125,000 figure includes both the pool and development at the park site. Estimated cost of the pool itself is \$47,000 with buildings to cost \$55,000. An additional \$4,000 was listed for the pool deck, \$2,000 for fencing, \$5,000 for parking development for 120 cars, \$5,000 for contingencies and \$7,000 for architects' fees.

Picnicking and recreation areas have been designated in the architects' plans for future development, but not included in the present estimates of the cost of the pool and development.

Legion Faces \$400 Deficit For Fireworks

American Legion officials were pleased that an estimated 5,000 persons viewed the July 4th concert and fireworks at Memorial Park but expressed dismay at a looming \$400 deficit.

Commander Cecil Helmink urged businesses, industries and private individuals who have not yet contributed to send their donations to the American Legion Fireworks Program.

Helmink said this year's program the 17th, was one of the best ever presented, but the program must be self supporting.

The Legion will be forced to take a hard look at presenting future programs, Helmink said, unless it is possible to gain sufficient donations to make up this year's deficit.

Set Fund Drive To Attract New Industry to Area

Dr. James B. Ray, industrial development funding expert for the National Fund Raising Services Chicago office, arrived in Holland Friday to take charge of the drive to raise \$125,000 for the attracting of more industry to this area.

Ray, of Phoenix, Ariz., has been retained by the Holland Economic Development Corp.

He will assume the task of organizing some 150 local citizens for the purpose of soliciting the money in cash and pledges. The funds are to be used for initiating a program to eventually make available several million dollars for expansion of present business and industry and to draw new industries into the community.

While plans call for beginning immediately to "sell" the Holland

Dr. James B. Ray

area to industries in other places which may consider relocating here, Development Corp. officials stressed that any local industry seeking to expand will be given first consideration.

Development Corp. officials are hopeful that within three to five years, the area will realize a gain of 2,000 to 3,000 new jobs with 4,000 to 7,000 new citizens residing in the community.

Using figures based on surveys by the United States Chamber of Commerce, Dr. Ray estimated that the addition of 1,000 new factory workers would mean 2,960 new citizens, 1,120 more households, 510 more school children, 1,070 more passenger cars, 740 local service workers employed and 40 more retail establishments needed.

In dollars and cents, this would be translatable into \$5,900,000 more in local personal income annually, \$2,700,000 more in bank deposits, and \$3,600,000 more in retail trade per year.

'Critic's Choice' At Red Barn Is Choice of Critics

"Critic's Choice," by Ira Levin opened Monday night at the Red Barn Theatre and if the critics in the audience had their "white boxes" with them for rave notices, they would be used to describe the sparkling comedy with the clever lines. The family will love it.

Don Bonevich as Parker Ballantine, the drama critic, was outstanding in his role as he parried with his wife, Angela, convincingly played by Dorothy Lee Tompkins, a would-be playwright. (Actually the situation has a parallel — Miss Tompkins, the wife of director-produced Jim Dyas, has written a play and knows the perils involved.)

The critic never believed the play would be read, much less produced, but to his horror, a producer was found and a Greenwich-type director, Dion Kapakes, portrayed by Bill Cain, carries through until opening night in New York. Ballantine puts his reputation as a critic on the block — almost. Some of the best acting in the play follows the first pre-first night jitters.

Mike Stern as young John Ballantine, gives a fine performance as the precocious offspring of the critic. Barbara Greenwood as the mother-in-law, Charlotte Orr, has a delightful role and seems to enjoy playing it.

Anna Marie Stranese as Ivy London, the critic's first wife, is typically brittle and Broadwayish. Essie the maid is played by Barbara Coughlin.

Burt Breazeale did a thorough job of direction — the lines were crisp, the action moved and the play, which is 'currently being seen in the movies, is a good vehicle for the Red Barn troupers.

Don Weber has constructed a fine set for the Ballantine apartment on Washington Square in New York. The lighting is by James Mitchell and costumes are by Nicki Gallias.

"Wonderful Town," the musical opens next Tuesday, July 16 at the Red Barn with many area singers and dancers in the cast.

Schools Study Mutual Needs

Mutual concern for the over-all educational program of Holland has prompted the organization of the Holland Council for Inter-School Cooperation.

Dr. Kenneth Weller, chairman of the new organization said many of the problems that exist in the area of education can be solved by joint consideration. "The basic function of the council will be to exchange information and make studies which will enable us to suggest possible areas of cooperation and coordination to the various school boards for their consideration and action," Weller said.

The new educational study group originated at an informal meeting of several private school representatives several months ago. Representatives of the public schools were invited to the next two meetings, leading to the formal inauguration of the council. It now includes the public schools, Christian schools, Catholic schools, Seventh Day Adventist schools and Hope College. Three representatives from each school system are selected by their respective school boards and include the chief administrator of each system or his representative.

The Council is presently studying community facilities in relation to educational needs. According to a special committee appointed by the Council, several possibilities exist for using the excess capacity in some facilities by those having shortage of similar facilities.

Other situations where cooperative planning and research will benefit Holland's educational program are finance, total community facilities, area population and cooperative use of personnel.

Members of the council are Dr. Robert De Haan, Professor Garrett VanderBorgh and Dr. Kenneth Weller, Hope College; Monseigneur J. A. Moleski, J. Robert Collins and

Work Started On Water Tank

Excavation for the 5 million gallon water reservoir for the city of Holland is scheduled to be completed this week and work will begin on the concrete footings for the steel tank early next week.

When completed this fall, the storage tank will help supply water to the city during peak hours of water usage. In this way, the load carried at the pumping station will be decreased.

The project is being financed through a \$250,000 bond issue and includes the construction of a pipeline from the site of the tank on 120th Ave. one-quarter of a mile south of 16th St., to the intersection of 16th St. and 120th Ave.

The tank will have approximately 3.5 times the combined capacity of the city's three existing reservoirs. The elevated tank on 28th St. holds 500,000 gallons, the underground tank on Fifth St. holds 300,000 gallons and the standup pipe on Fifth St. has a capacity of 600,000 gallons.

Work Pushed On Power Line

Work is proceeding on schedule for the city's 12,500 volt primary power line along Pine Ave. New utility poles have been placed up to 18th St. and Pine Ave., and the underground cable has been laid from the power plant, at Third St. and Pine Ave., along Pine Ave. to Seventh St.

Poles must yet be placed from 18th St. up to 22nd St., and the above ground wire strung from Seventh St., before the main line of the project is completed.

Superintendent of Public Utilities Guy Bell also indicated that some of the existing poles along Pine Ave. might have to be replaced in order to support the larger load.

At the intersection of Pine Ave. and 22nd St. the line will divide and run east and west to tie-in with the other two legs of the loop system; at 22nd St. and Van Raalte Ave., and at 25th St. and Lincoln Ave.

The completion date for the entire \$25,000 project has been set for this fall.

When completed the line will provide the city with three primary power lines instead of the existing two. This will mean better service for consumers along the line and also help to facilitate repairs in the event of a power failure.

Test Eyesight Of 7,832 In Allegan

ALLEGAN—The Vision Program carried on by the Allegan County Health Department during the 1962-63 school year with funds provided by the schools resulted in the screening of 7,832 school children for visual defects, essentially all of the children in half of the schools in the county. Of this number 1,010 children or 12.9 per cent of those tested were found to have a significant loss of visual acuity. These were referred to their own physicians for further evaluation and correction of the conditions found.

While it is too early to know the results of the 1962-63 program in terms of defects corrected, the 1961-62 program resulted in the correction of the defects in about 71 per cent of those found to have defects. Children in the other half of the schools will be tested during the 1963-64 school year.

A new Massachusetts Vision Testing kit was purchased for the department by the Lion's Club of Allegan which greatly facilitates putting on the program. All Lion's Clubs in the county, together with some other local and state agencies helped with the purchase of glasses for children whose parents were unable to pay for them. The costs of training the technicians are borne by the Michigan Department of Health, the technician's services in the county by the schools participating in the program.

It is the hope of the health department that it will be able to continue the program as outlined so that children will have their vision tested at two year intervals until they have completed the eighth grade.

Macatawa Yacht Club Destroyed

The Macatawa Bay Yacht Club was completely destroyed by fire early Friday. The \$150,000 loss was partially covered by insurance.

The Coast Guard, Park Township and Holland firemen were called out about 1:30 a.m. Friday to fight the blazing fire for over four hours. The south and west side of the building was completely destroyed when firemen arrived.

Exact cause of the fire was undetermined, although firemen believe it may have started in the center of the dining room area on the west end of the clubhouse. That area was the hottest, firemen said, and was the only place where the fire had burned through the floor.

The last people had left the clubhouse about 12:30 before the fire started, and no employees were living there full time, Commodore Leonard Verdier Jr. said.

The Yacht Club board of directors met Friday to plan the rebuilding of the club and to provide temporary quarters for this season. Sailing races and sailing school will proceed as scheduled, Verdier said.

The sailing school met on the porch of Jesiek Brothers Ship Yard on the west end of South Shore Dr. at 11 a.m. Friday instead of at the Yacht Club.

Jesiek Brothers has also offered the use of some of their facilities adjacent to the yacht club property. The new swimming pool will be open in accordance with a schedule provided to the members of the club.

Rebuilding of the clubhouse will be in the approximate location of the one that burned Friday, although the board met again Saturday to advance plans on its construction.

The flames were under control within an hour after firemen arrived, but continued burning until after 6 a.m. Firemen were called back at 7:15 to fight the smoldering fire and again at 9:30. A Coast Guard ship also battled the flames on the portion of the clubhouse overhanging Lake Macatawa.

Fireworks were held before midnight, although firemen believe they were not the cause of the fire. A few sparks did, however, come in contact with the building and were quickly put out.

Club members who drove to the scene Friday found only the charred walls of a skeleton building, and debris from the fire covering the water. The entire west and south end of the building had collapsed; the east end walls were still standing, although the entire interior was charred. Only the brick chimney with the initials MBYC was untouched by fire.

The fire, believed to have started in the dining room, was swept eastward by mild winds away from the yachts surrounding the clubhouse.

The fire was discovered shortly after 1 a.m. Friday by occupants of a house east of the club. Home owners there stood on their roofs with water hoses to prevent the fire from spreading with burning pieces of paper that traveled the several hundred yards.

Consumer electrical lines leading to the clubhouse were turned off.

The building, erected in 1939, was presently being used by 185 members of the Yacht Club.

The "For Members Only" sign at the entrance to the Club was still in effect Friday with an attendant turning away all cars with persons in them that didn't belong to the Yacht Club — including a Sentinel reporter-photographer.

"We are trying to keep the public out," he said.

The "public" however, was allowed to park along South Shore Dr. and walk in to see the burned clubhouse. The clubhouse was also fenced off with a reserve sheriff deputy on duty to see that no viewers entered the charred building.

Seeks Board To Administer Sports Centers

A proposal to study feasibility of a recreation authority made up of members from all Holland school systems, the City Council and the Planning Commission was included in a series of recommendations made by new Holland Board of Education President Harvey Buter in a "state of the district" report Monday night.

The specific function of such an authority would be to control the operation of various tax-supported buildings in the community, "such as an inside swimming pool, Civic Center, Riverview Park, etc."

Buter's proposal stressed several advantages to such an authority. He noted that all interested groups would be represented and thus have equal rights. Financing and upkeep would not then be dependent on the city budget or the public school budget, he said. He likened the plan to a special voted program, such as the County Special Education program.

The plan has overtones of the same "inter-schools" approach presently being investigated by the Holland Council for Inter-School Cooperation on matters relating to school problems. Buter is secretary of the newly-formed Council.

The inclusion of the "inside swimming pool" as one of the facilities which could be controlled by such an authority is at variance with a plan presently being considered. Holland will vote soon on a proposal to build a \$125,000 outdoor swimming pool at Prospect Park.

The election is to be scheduled for the same date as the forthcoming Federal district annexation election, still to be set by the Secretary of State's office in Lansing.

The report also included several other recommendations for various areas of school matters, particularly finance.

Chief among the finance recommendations was a general proposal to "explore all possible areas of additional income for the school district for the 1964-65 school year so that we can return some of the urgently needed programs into our curriculum. If funds will not be available through all other sources, we must again consider the possibility of an operating millage vote."

Such a study, Buter said, must include "the possibility of a County vote to increase the millage limitation from 15 to 18 mills as provided by the new Constitution." Buter added that this particular provision of the Constitution takes effect Jan. 1, 1964.

He also included a proposal to study the possibility of operating schools on a 48 week year, rather than a 38-week basis. This, Buter said, "would include a suggested formula for paying teachers and financing such an operation."

The report also urged study of proposals made to the board by the Council on Inter-School Cooperation, and investigation of ways the Holland district can be of service to the other educational groups in the community.

Film on U.S. Highways Shown at Optimist Meet

Lester Walker presented a Walt Disney film at the noon meeting of the Optimist Club Monday in Cummerford's Restaurant. He was introduced by George Hillis, program chairman.

Milt Beelen, president, announced a board meeting to be held Wednesday noon in the Warm Friend Hotel.

Plans concerning the activities of the Optimist Club at the Ottawa County Fair were discussed by Dale Fris.

School Board Clears Many Routine Items

The Holland Board of Education disposed of a large amount of routine business at its first regular meeting since the election last month of two new members.

The board referred to the building and grounds committee a report from the Holland Traffic and Safety Commission recommending several improvements to existing signals at the intersection of Lugers Rd. and 32nd St., where Lakeview School is located.

The report stated that 350 area residents had petitioned the city to take action on the improvements, expressing the belief that present signals and safety devices at the intersection are inadequate.

The commission had recommended intensifying the intensity of the yellow flasher at the intersection, and making the stop sign more easily noticeable and readable.

Of special interest in the report was the suggestion by the City Manager that the intersection was an "ideal" location for the erection of an elevated crosswalk. The committee and superintendent of buildings and grounds, Edward Prins, were instructed to examine the situation to determine the feasibility of such a project. An elevated crosswalk, running from the playground on the south side of 32nd St., to Lakeview School on the north side, would have to be paid for by the school district.

Superintendent Scott recommended approval of a contract for Mrs. Frances K. Webster to teach in the elementary schools. Mrs. Webster, a Hope College graduate who has studied at the University of Michigan and Michigan State University, is also a registered nurse. Scott recommended she be hired at \$5,100, allowing her three years of experience credit for her previous experience as a nursing instructor. Approval was unanimous.

In his administrative report to the board, Superintendent Walter W. Scott told members that the 1963 school census revealed that 9,902 children through the age of 19 years were currently living in the Holland school district. This figure has increased by 4,190 over a ten year period, Scott said.

Of this number, Scott said, 7,424 were in the age 5 through 19, and this figure too has nearly doubled over the ten-year period.

The student accident insurance plan, which Scott submitted for the coming year, received the unanimous support of the Board. Under this program student participation in the program is entirely voluntary, even for boys taking part in interscholastic athletic events.

In the latter case, however, school authorities strongly recommended that the student have some sort of coverage, and if the student is not covered by the school insurance plan the parent is required to sign a card stating his assumption of all responsibility for all medical and hospital bills resulting from participation in interscholastic sports.

The cost of the plan for children in the elementary grades is \$1.50 per year, while students in the junior and senior high must pay \$2.25 for accident coverage during the entire year. All athletic teams are covered by the basic plan, except the senior high interscholastic football team.

Football players are covered by an additional policy, costing \$16. The Holland High School Athletic Association will cover \$11 of the cost, and the other \$5 is to be paid by the individual player. They also carry the \$2.25 basic policy, for more general coverage.

The board voted unanimously to assume control of the Prestatie Huis school for mentally retarded. The school at 88 East 13th St. comes under the county and state provisions for special education, and involves no additional cost to the school district.

The board approved the granting of vacation pay to Rich Wolman, a high school custodian who had been suspended following his refusal to work on baccalaureate Sunday last June. Wolman had contended such work should be paid double time. He later elected not to return to his position on terms of a six weeks probation and reassignment.

The board also presented to Sid Woudstra, of 311 West 18th St., a pin in appreciation of his 20 years of service to the Holland school system as a building custodian.

In making the award to Woudstra, Board president Harvey Buter expressed the hope that Woudstra would be able to serve the system as capably for "another 20 years."

Board member Bernard Arendshorst gave the invocation. Member Harry Frissel, who is studying in Washington, was absent. The meeting lasted three hours.

Zeeland Church Scene of Rites

Mrs. Kenneth Lee Disselkoe

A double ring ceremony on June 28 in Third Christian Reformed Church in Zeeland united Miss Julie Nagelkirk, daughter of Mr. and Mrs. Edward Nagelkirk of 123 South State, Zeeland, and Kenneth Lee Disselkoe, son of Mr. and Mrs. Simon Disselkoe of Alice St., Zeeland.

The Rev. Arthur W. Hoogstra performed the evening rites before a setting of palms, brass miniature tree candelabra on either side of the brass arch candelabra which was banked with bouquets of gladioli, and pompons. White and blue satin bows marked the pews.

Given in marriage by her father, the bride wore a floor-length dome-shaped gown of silk organza over tissue taffeta. The gown featured chains of Venice daisies outlining the scooped neckline, elbow-length sleeves and a free flowing chapel train which fell from a tailored bow. Her elbow-length veil of imported illusion fell from a silk organza pillbox hat trimmed with jeweled daisies. She carried a crescent shaped arrangement of white shasta daisies and ivy.

The matron of honor, Mrs. Franklin Visser, wore a light blue, dome-shaped shawl gown with a small bow at the center back. She carried a basket-type arrangement of white shasta daisies. Dressed identically to the ma-

trons of honor were the bridesmaids, Joan and Karen Nagelkirk, sisters of the bride. Their headpieces were light blue ribbons with shasta daisies. They carried similar floral arrangements.

The flower girl, Mary Kromendyke, carried a lace basket of blue daisies and petals. Mark Kromendyke, the ringbearer, carried a white satin pillow for the rings. Both are cousins of the groom. Edward Nagelkirk the bride's brother was the candle lighter.

Franklin Visser was best man and ushers were Ron Lubbers and Keith Disselkoe.

Mrs. Marvin Ritsema was organist for the rites. She also accompanied the soloist, Irwin Smith, when he sang "Whither Thou Goest" and "The Lord's Prayer."

Mr. and Mrs. James Otten were master and mistress of ceremonies for the reception for 150 persons held in the church parlors.

For their wedding trip to Canada the new Mrs. Disselkoe, wore a three-piece white suit with maize and black patent accessories.

The couple is at home at 109 1/2 West Central Ave., Zeeland.

Both Mr. and Mrs. Disselkoe are graduates of Holland Christian High School and students at Calvin College. Mrs. Disselkoe is presently employed at Herman Miller, Inc., Zeeland.

Village Square Chairmen Plan Tea at Phelps Hall

Final plans and arrangements for the seventh annual Hope College Village Square, which is to be held all day Friday, Aug. 2, on Hope College campus, will be made Friday at a tea at 1:30 at Phelps Hall.

Special guest at the tea will be Knut Hougaard, the world famous portrait artist. As a special attraction for the Square Mr. Hougaard will have an exhibit of his paintings and during the day will be doing a portrait in pastels.

Chairmen of the booths and other members of the staff who are planning the event are expected to be present. Mrs. Matthew Peelen of Kalamazoo, general chairman, will preside.

The Square sponsored by the Women's League for Hope College with active chapters in Illinois, Indiana, Wisconsin and New York as well as in Michigan, is an annual event which attracts thousands of townspeople, resorters and alumni of Hope College.

In addition to Mr. Hougaard's exhibit, there will be a children's center, the "import booth," attic specials, a Christmas booth, as well as sausage and cheese from Wisconsin, a floral shop, baked goods and many other items.

As in the past there will be a morning coffee, noon lunches, and an afternoon social and a chicken barbeque supper in the evening.

Proceeds which last year amounted to more than \$11,000 will again be used for furnishings the new Van Zoeren Library.

Files Civil Suit In Court

GRAND HAVEN — Anna Kietzman, 1487 Ottawa Beach Rd., Holland, has started suit in Ottawa County Circuit Court for \$8,000 she claims is held in a joint account in the Ottawa Savings and Loan Association.

The defendants in the suit are the loan association, Abe H. Hartsema, Muskegon executor of the estate of the late John Franzburg of Holland and Donald Truinestra of the association.

The plaintiff claims that Franzburg opened the joint account on Nov. 7, 1958 and died last December, leaving her the owner of the account, now in excess of \$8,000.

The savings association has refused to pay the plaintiff the money and Hartsema has notified the plaintiff that the estate claims the money.

Anna Kietzman asks the court to determine her the owner and that the money be paid to her by the savings association.

Fails to Yield Way

Kenneth Lee Sebasta, 25, of 74 Scotts Dr., was issued a ticket by Ottawa County sheriff deputies Monday for failure to yield the right of way just east of Rose Ave. on Lakewood Blvd., after his car collided with one driven by Joseph R. Bolte, 54, of 71 River Hills Dr.

Grand Haven Police Chief Again Opposes Tavern Dance

GRAND HAVEN — The controversy over dancing in taverns in the city of Grand Haven, which has been going on for several years, between the City Council and the Chief of Police Richard Klempel continued at Monday night's regular council meeting.

In order to bring the issue to a head a telegram was sent today by the City Council to the state liquor control commission urging immediate action on an application for a tavern dance permit filed by the Snug Harbor Tavern of South Water St. in downtown Grand Haven.

Klempel, whose recommendation for a denial of the permit was disregarded by the Council July 1, sent a letter July 6 to the state commissioner, recommending for the second time that the state dance permit be denied.

On July 1 Klempel said that he will continue to oppose dancing in taverns and will resign before he would give a favorable report to the state commission.

The chief had submitted a similar recommendation to the state commission in January of 1962.

But in the July 6 letter he listed five reasons why his department is still opposed to tavern dancing. He also cited several changes in the neighborhood of the Snug Harbor Tavern that made it even more difficult to control the situation on Water St.

About 70 persons, many of them church leaders, attended Monday's meeting of the Council but no fireworks, similar to that which occurred at the July 1 meeting, resulted.

Three pages of petitions favoring dancing in taverns in Grand Haven were filed with the City Clerk J. Nyhof Poel Monday and these were placed on file Monday night by Mayor William Creason.

The controversy over dancing in taverns here began two years ago and since then the Council has adopted a dance ordinance. Even though a city permit is issued, Jack E. Peeling, Snug Harbor owner, must obtain a state permit from the liquor commission which normally abides by the local police recommendation.

Councilman Thomas Fullerton, one of the leaders in the attempt to approve dancing in taverns, said Monday night that he is eager to have the controversy resolved and asked that the telegram be sent to Lansing today for immediate action as the commission meets each Tuesday.

Fullerton has also suggested that

after the decision from Lansing is received that a special meeting of the Council be held later this week. Klempel's letter to the state liquor commission, read Monday night by City Manager R. V. Terrell, listed five reasons for his recommendation for denial. Snug Harbor, he said, is located next to the old Barn outdoor skating rink, now being developed into a recreation area for both young people and adults.

There is no offstreet parking at the tavern, Klempel said, and the place is located on busy South Water St., already congested with heavy traffic leading to the state park several blocks south of the tavern and the new electrical fountain located blocks north of the tavern and across the Grand River.

"We feel the department cannot handle any added enforcement problems at this time," the letter said, "nor do we feel we want to encourage any activity which tends to create additional problems."

Holland Resident Dies in Hospital

Schuiling of Mansfield, Ohio; two grandchildren, Richard Schuiling of Mansfield and Mrs. Michael Walsh of Orlando, Fla.; one niece, Mrs. Iman Bosch of Holland; a nephew, Arthur Van Looyengod of Phoenix, Ariz., formerly of Holland; a sister-in-law, Mrs. James Ver Schure of Holland.

ALLEGAN — A carelessly tossed cigarette set off two six-acre fires Thursday at the Allegan State Forest in Western Michigan. One fire was located in Valley Township in Allegan County and the second was about a mile away.

State Conservation officers put out the first fire using a tractor and bulldozer and doused the second by pumping water out of Swan Creek.
